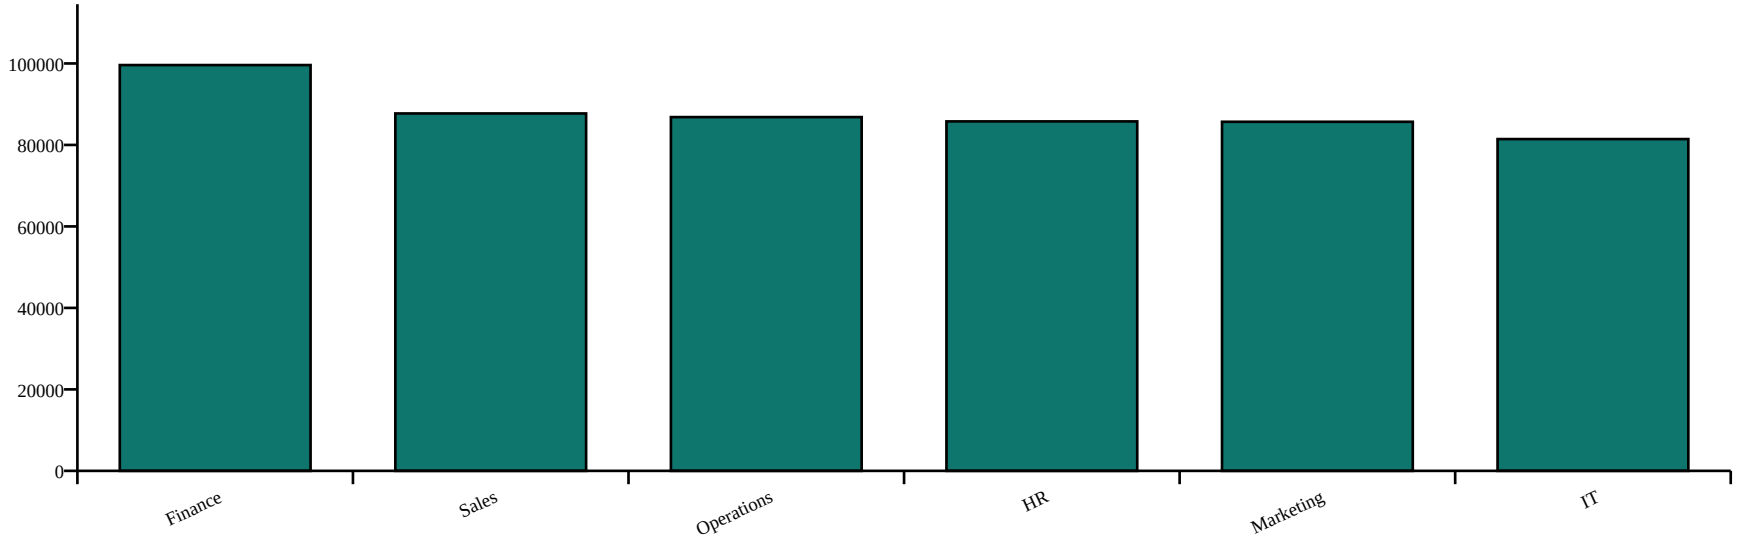
Finance has the highest average salary at INR 99,604.80; IT has the lowest at INR 81,436.76.

Workforce Chart

Department Salary Profile



Key Findings

- Headcount is distributed across the reported groups without a single dominant concentration.
- 100 employees are recorded as inactive or on leave and may need workforce coverage review.
- The average-pay spread between the highest and lowest departments is INR 18,168.04.

Recommendations

- Review staffing capacity in the largest groups before assigning additional workload or approving new vacancies.
- Compare salary and tenure patterns within the largest groups to identify retention or pay-equity risks.

Data Limitations

Created by Vijayashree | All rights reserved 2026

- The dataset does not include attrition events, workforce targets, or planned hiring demand.
- The report describes the available employee snapshot and does not infer causes or future outcomes.

Suggested Follow-up

Create a tenure and attrition report to identify groups with potential retention risk.
